### *REMARKS.*

---

1. No student should enter the Sub Freshman Class of either, course, until fully up with it.

2. All students should take one of the above courses, and pursue it regularly; but those not wishing to do so, are permitted to select such subjects as they are competent to study, and can recite with regular classes, provided that they pass the entrance examination in Arithmetic, Elementary Algebra, English Grammar, and Geography.

3. In the Scientific Course, students can take Music or Art instead of German.

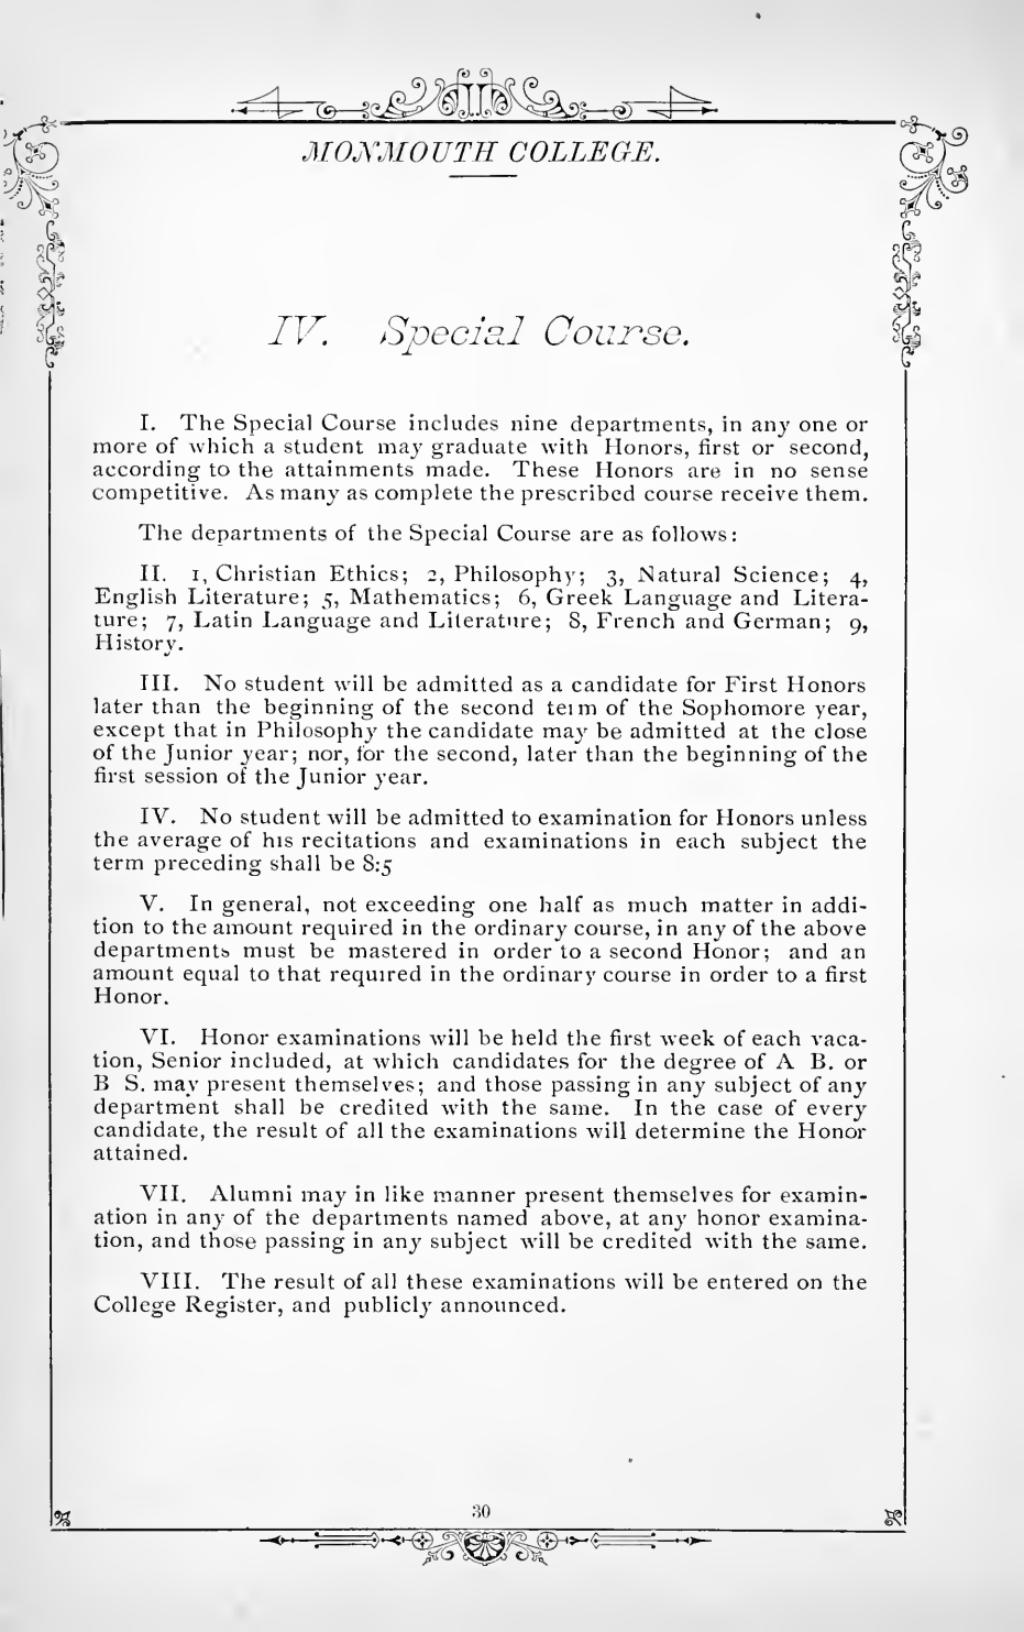

4. All the students are required to attend the Worship of God in the chapel daily, and to recite a Bible Lesson weekly. Students of the Classical and Scientific Courses will study select portions of the Scriptures, in addition to the usual text books on Moral Philosophy and the evidences of Natural and Revealed Religion. The President will give frequent lectures on manners, morals, and religious duties, intended to train the students to the life of Christian ladies and gentlemen. All who do not reside with their parents are required to attend public worship and Bible class, in some church, on the Sabbath. Students' prayer meetings are maintained and well attended. The Students' Christian Union, an association of Students and Professors, for the promotion of their spiritual welfare and the cause of Christ in the College, holds regular monthly meetings on the first Sabbath of each month. The Faculty regard it as an important part of their work to labor for the moral and spiritual welfare of the student.

5. The degree of A. B is conferred on students who complete and pass satisfactory examinations in the Classical Course.

The degree of B. S. is conferred on students who complete and pass satisfactory examinations in the Scientific Course.

A certificate of attainments will be given to those who complete and pass satisfactory examinations in the Select Course.

MONMOUTH COLLEGE.

*IV. Special Course.*

I. The Special Course includes nine departments, in any one or more of which a student may graduate with Honors, first or second, according to the attainments made. These Honors are in no sense competitive. As many as complete the prescribed course receive them.

The departments of the Special Course are as follows:

II. 1, Christian Ethics; 2, Philosophy; 3, Natural Science; 4, English Literature; 5, Mathematics; 6, Greek Language and Literature; 7, Latin Language and Literature; 8, French and German; 9, History.

III. No student will be admitted as a candidate for First Honors later than the beginning of the second term of the Sophomore year, except that in Philosophy the candidate may be admitted at the close of the Junior year; nor, for the second, later than the beginning of the first session of the Junior year.

IV. No student will be admitted to examination for Honors unless the average of his recitations and examinations in each subject the term preceding shall be 8:5

V. In general, not exceeding one half as much matter in addition to the amount required in the ordinary course, in any of the above departments must be mastered in order to a second Honor; and an amount equal to that required in the ordinary course in order to a first Honor.

VI. Honor examinations will be held the first week of each vacation, Senior included, at which candidates for the degree of A. B. or B. S. may present themselves; and those passing in any subject of any department shall be credited with the same. In the case of every candidate, the result of all the examinations will determine the Honor attained.

VII. Alumni may in like manner present themselves for examination in any of the departments named above, at any honor examination, and those passing in any subject will be credited with the same.

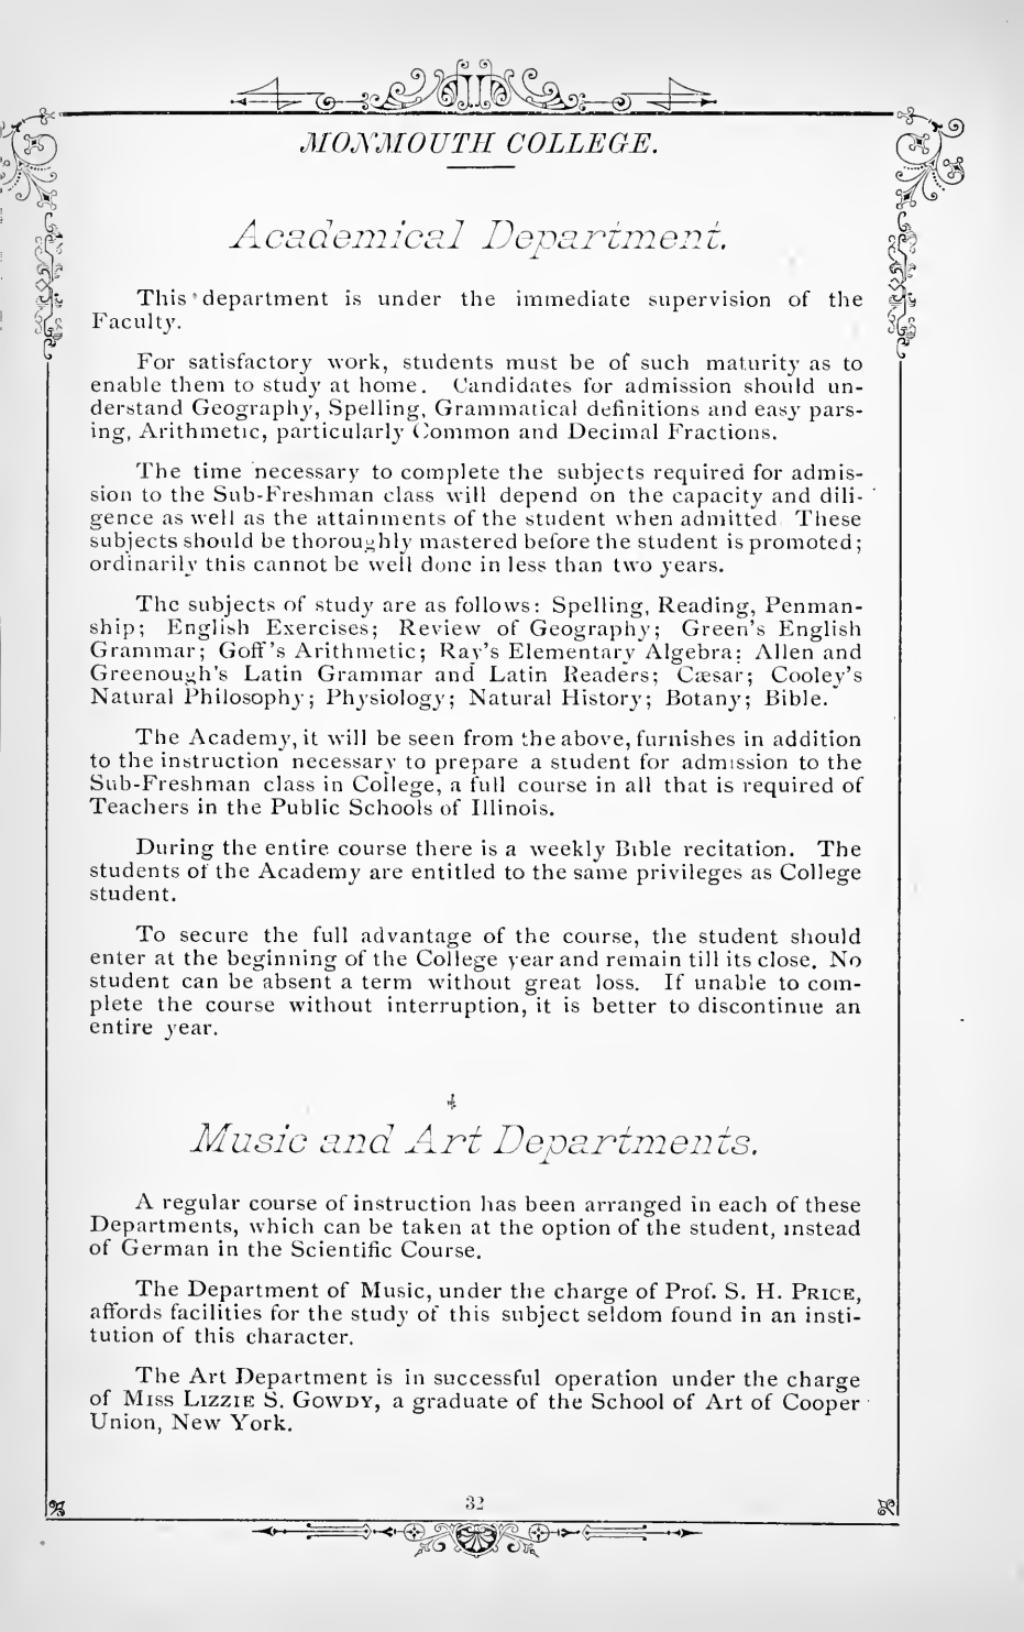

VIII. The result of all these examinations will be entered on the College Register, and publicly announced.

## *MONMOUTH COLLEGE.*

### *Academical Department.*

This department is under the immediate supervision of the Faculty.

For satisfactory work, students must be of such maturity as to enable them to study at home. Candidates for admission should understand Geography, Spelling, Grammatical definitions and easy parsing, Arithmetic, particularly Common and Decimal Fractions.

The time necessary to complete the subjects required for admission to the Sub-Freshman class will depend on the capacity and diligence as well as the attainments of the student when admitted. These subjects should be thoroughly mastered before the student is promoted; ordinarily this cannot be well done in less than two years.

The subjects of study are as follows: Spelling, Reading, Penmanship; English Exercises; Review of Geography; Green's English Grammar; Goff's Arithmetic; Ray's Elementary Algebra; Allen and Greenough's Latin Grammar and Latin Readers; Cæsar; Cooley's Natural Philosophy; Physiology; Natural History; Botany; Bible.

The Academy, it will be seen from the above, furnishes in addition to the instruction necessary to prepare a student for admission to the Sub-Freshman class in College, a full course in all that is required of Teachers in the Public Schools of Illinois.

During the entire course there is a weekly Bible recitation. The students of the Academy are entitled to the same privileges as College students.

To secure the full advantage of the course, the student should enter at the beginning of the College year and remain till its close. No student can be absent a term without great loss. If unable to complete the course without interruption, it is better to discontinue an entire year.

### *Music and Art Departments.*

A regular course of instruction has been arranged in each of these Departments, which can be taken at the option of the student, instead of German in the Scientific Course.

The Department of Music, under the charge of Prof. S. H. PRICE, affords facilities for the study of this subject seldom found in an institution of this character.

The Art Department is in successful operation under the charge of Miss LIZZIE S. GOWDY, a graduate of the School of Art of Cooper Union, New York.

***MONMOUTH COLLEGE.***

***Special Regulations.***

I. The requirements for admission to the several classes are fully stated in the outline of the different courses. Candidates for advanced standing must furnish satisfactory evidence of proficiency in all the previous studies of the course they propose to take. No student of known immoral character, or whose influence is likely to be injurious to good order will be admitted. Applicants for admission, unknown to any member of the Faculty, should bring certificates of good moral character.

II. The Statutes of the College, Chapter II, Section 3, provide that "No student shall be permitted to enter at a later period of the course, than the commencement of the first session of the Senior year." The spirit of this law, in the judgment of the Faculty, requires at least one full year's attendance of a student on the exercises of the College in order to graduation. *Under no circumstances* will this rule, as thus interpreted, be relaxed while the above statute remains unrepealed.

III. The Senate has adopted the following as an additional chapter to the College Statutes:

"**SECTION 1.** All persons matriculating shall be regarded as students, and on payment of the required fees shall be entitled to all the privileges of the College.

**SEC. 2.** Connection with the college is terminated by graduation or dismissal, honorable or otherwise.

**SEC. 3.** The privileges of the student shall be suspended in all cases of failure to pay the required fee and attend on instruction: *provided*, however, that the following privileges, namely, that of examination with his classes, active membership in the societies, representing societies and classes on public performances, and the use of the Library and Reading Room, may be granted to students temporarily absent, for a period not exceeding one year, on written permission from the Faculty, and the payment of two dollars per term.

**SEC. 4.** All persons enjoying any of the above privileges shall be subject to College discipline, the same as if in actual attendance."

The Faculty judge the attendance of a student on the exercises of the College at least three-fifths of any year as necessary to complete satisfactorily the work of the year, and, therefore, will not, under ordinary circumstances, grant leave of absence, with the privilege of examination without recitation, during any one year, exceeding four months. Any one being examined without having recited with the class, will be required to pass an examination doubly extensive. The Faculty are unwilling to grant leave of absence to any Senior. Seniors should be in attendance the entire year.

IV. There are during the year public exhibitions of the College classes as follows: Of the Junior class in May, and of the Sophomore in November. These exhibitions are held on such evenings and in such places as the Faculty may appoint.

V. At the meeting of the Senate in June, 1874, the following was added to the Statutes of the College as Sec. 4 of Chapter xiii: "It shall

## *MONMOUTH COLLEGE.*

be unlawful for any student of the College hereafter to become a member of any secret College fraternity, or to connect with any chapter of any such fraternity, and also for any active member of such fraternity to be admitted as a student of this College."

### VI. In regard to marking, grading and examinations, the following principles have been adopted.

1. Each recitation is marked on a scale of 10; ordinary excellence being indicated by 9, extraordinary by 10; these marks are averaged in each subject, monthly, and entered on the Monthly Record. The actual attendance is marked on the same scale, and entered on the same record. To be marked 10 in attendance, on the Monthly Record, the student must have been actually present at every roll-call of his class during the month.

2. Each class is examined on each subject as soon as completed, the examination of each student is marked on the same scale and entered on the Annual Record. To pass, the student must answer correctly at least 70 per cent. of all questions asked him. No student is credited with any subject until he has been examined and passed in it. The average of the marks received for all the recitations and for the examination, in any subject, determines the student's grade in that subject.

3. The Grand Average of the marks received in all the subjects in which the student has been examined and passed with his class during the year, and of the marks for attendance during the same time, determines the student's rank in his class. This is entered on the Annual Record.

4. No student is promoted from a lower class to a higher, whose deficiencies exceed what may be made up in one year by a single recitation daily.

5. The Salutatory and the Valedictory, on Commencement Day, are delivered, the former by the Senior Scientific, the latter by the Senior Classical who ranks highest.

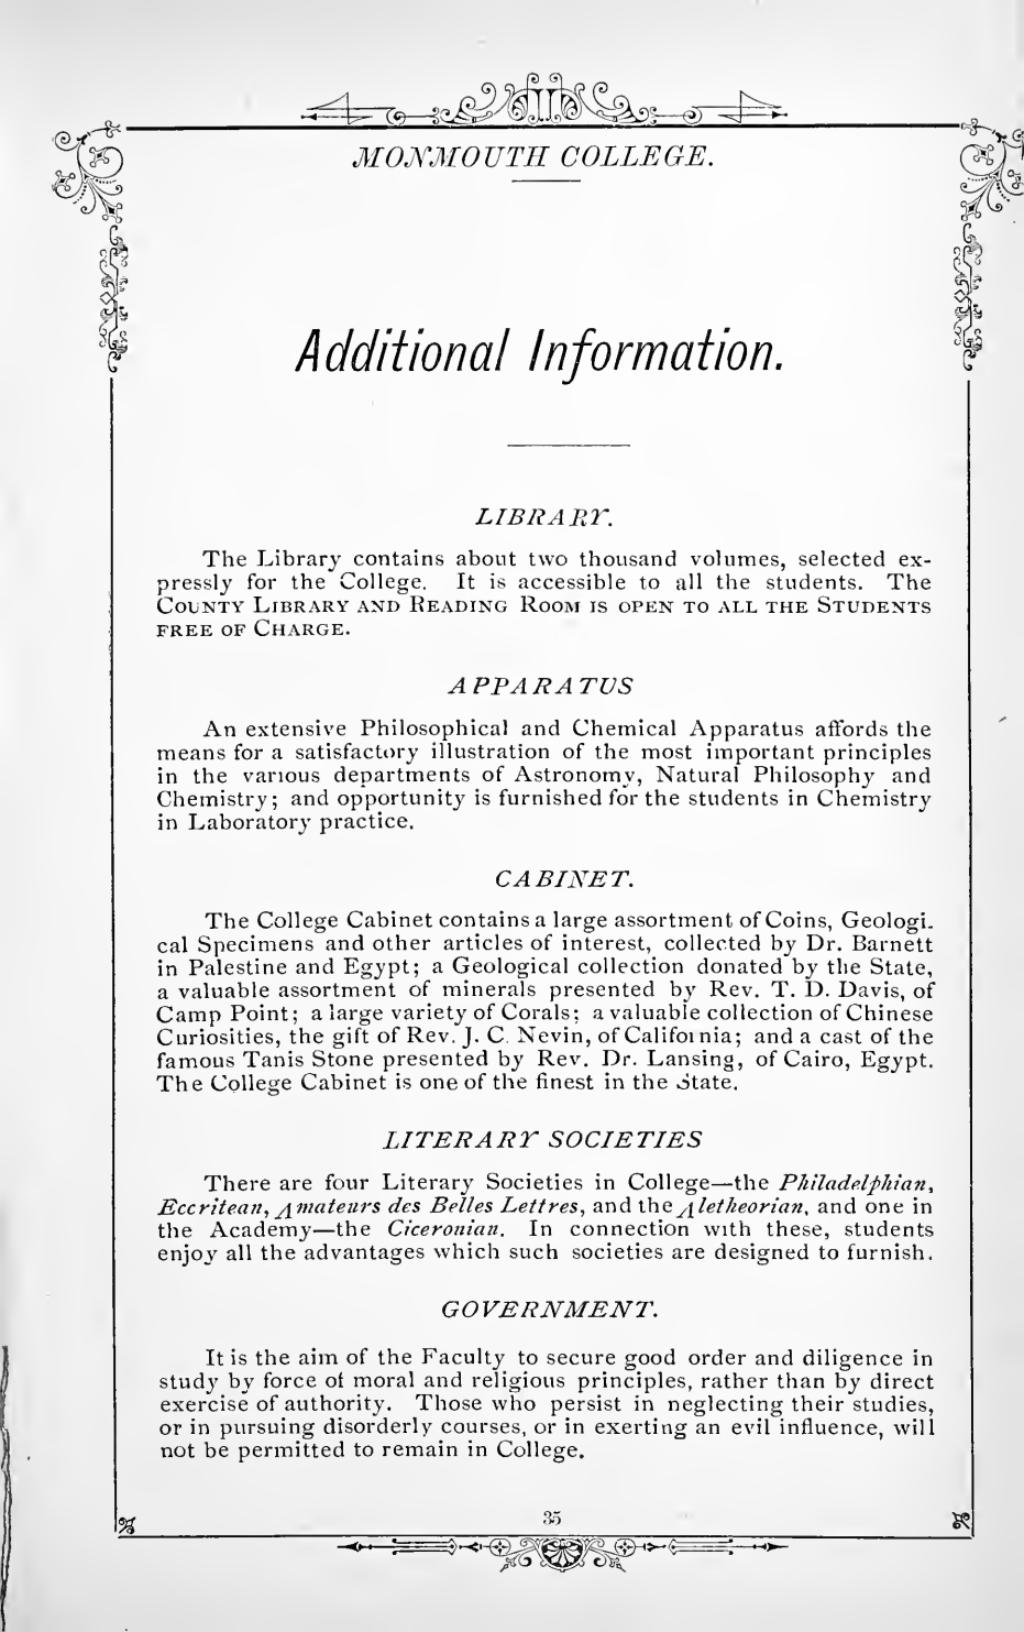

6. In order to secure thoroughness in the elementary subjects, each College class will be required to pass a special examination, after a review conducted by a Professor, in Geography, Arithmetic, and English Grammar. In addition to the above, Classical students, in Latin and Greek Grammar. To pass in these subjects the students must make an examination grade of 8. The terms during which these reviews and examinations will take place are indicated in the "Course of Study."

### VII. Reports are sent to parents or guardians at the close of each term. The President should be notified of every case where report fails to come within ten days after the close of the term.

VIII. The statutes expressly forbid the students to use intoxicating drinks as a beverage, or play cards, to frequent drinking, gambling, or billiard saloons, or improper places of resort of any kind. The Faculty judge places of amusement, commonly called "*balls*" and "*dances*," to be improper places of resort for students.

IX. Students are requested to notify the President, before changing their place of boarding.

X. Ladies and gentlemen are admitted to all the privileges of the College on the same footing.

## MONMOUTH COLLEGE.

### Additional Information.

#### LIBRARY.

The Library contains about two thousand volumes, selected expressly for the College. It is accessible to all the students. The COUNTY LIBRARY AND READING ROOM IS OPEN TO ALL THE STUDENTS FREE OF CHARGE.

#### APPARATUS

An extensive Philosophical and Chemical Apparatus affords the means for a satisfactory illustration of the most important principles in the various departments of Astronomy, Natural Philosophy and Chemistry; and opportunity is furnished for the students in Chemistry in Laboratory practice.

#### CABINET.

The College Cabinet contains a large assortment of Coins, Geological Specimens and other articles of interest, collected by Dr. Barnett in Palestine and Egypt; a Geological collection donated by the State, a valuable assortment of minerals presented by Rev. Nevin, of California; and a cast of the famous Tanis Stone presented by Rev. Dr. Lansing, of Cairo, Egypt. The College Cabinet is one of the finest in the State.

#### LITERARY SOCIETIES

There are four Literary Societies in College—the *Philadelphian*, *Ecritean*, *Amateurs des Belles Lettres*, and the *Aletheorian*, and one in the Académie—the *Ciceronian*. In connection with these, students enjoy all the advantages which such societies are designed to furnish.

#### GOVERNMENT.

It is the aim of the Faculty to secure good order and diligence in study by force of moral and religious principles, rather than by direct exercise of authority.
